

SOLID SURFACE COLLECTION

SCULPTED STONE™

CAST WITH NATURAL STONE

The Jacuzzi® Solid Surface Collection is sculpted from stone that is excavated from mines and milled. The naturally occurring minerals in the ground stone are then blended with resin, producing a composite as durable as it is beautiful. The baths and sinks made with this organic material provide exceptional strength, resilience and beauty.

INTRODUCING THE JACUZZI® SOLID SURFACE COLLECTION

Jacuzzi goes back to nature with the expanded Solid Surface Collection. Using our premium Luxecast® composite material, containing minerals derived from natural stone, we have created more sophisticated and imaginative designs in baths and sinks than ever before.

HIGH STYLE, ENDURING QUALITY

The clean design aesthetic of the Collection is rendered with meticulous attention to detail in our Solid Surface blend. Fortified with the earth's minerals, it enables us to offer extremely durable products backed by a five-year bathtub warranty, a 90-day sink warranty and an extensive service network.

PRISTINE FINISH

The boldly shaped vessels in the Collection have an easy-to-clean, non-porous finish that resists bacteria and stains. Available in a gloss or matte white, the high-performance finish will remain velvety-smooth through years of use.

INSULATING PROPERTIES

The insulating properties of the Luxecast® material help keep the bath water warm. With warmth plus body-cradling ergonomic design, the Jacuzzi® Solid Surface Collection ushers in a new age in soaking comfort.
